Creativity

Adaptability

Autonomy

Team spirit

Critical thinking

Time Management

## PERSONAL PROJECTS

**Tassjil:** a platform designed to allow parents to enroll their children in schools without having to physically travel or fill out paper forms.

**Aqlam:** is an innovative platform that allows Moroccans to share their passion for reading by exchanging books.

## LANGUAGES

Arabic

French

English

## EXPERIENCES

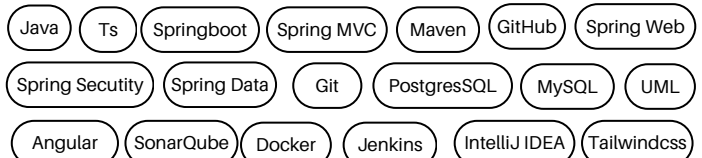

- **Bootcamp: Nov 2023 -> May 2024**  
Simplon **Maghrib** By JobInTech | Casablanca  
**Java backend application developer - Simplon.**

Enriching training in web development that allowed me to develop my technical and transversal skills. I followed a structured program for the creation of web applications. With more than 10 concrete projects, I put my knowledge into practice by contributing to various web platforms For example:

- **LabXpert:** a complete software platform dedicated to laboratories, facilitates inventory management, protocol creation and results analysis.
- **Connexia:** an intuitive and user-friendly social network, brings people together and creates vibrant communities.

These experiences allowed me to develop my skills in front-end and back-end development.

### Stack Technique

- **Internship: May 2023 -> Sep 2023**  
redgato | Al Hoceima  
**Full-Stack Developer (Java- Angular)**

Internship period at Redgato allowed me to develop my technical skills in full-stack web development. I deepened my knowledge of Java Spring Boot and Angular and their concrete applications within a professional development team.

This experience also allowed me to contribute to the Dentalix and Anomalix platform,

- **Dentalix:** a tool that allows dentists to easily place orders from laboratories
- **Anomalix:** an anomaly detection system for water dams. Using data analysis and artificial intelligence techniques.

### Stack Technique
